OBJECTIVE

Front-end developer with strong expertise in HTML, CSS, JavaScript, and Python, along with MySQL and AWS. Seeking a challenging position to leverage my skills in building responsive, user-friendly web applications and contribute to a dynamic development team while continuing to grow professionally.

PROJECTS

JARVIS - VR ASSISTANT : May 2024 - Present

- Developed an intelligent virtual assistant using Python, incorporating speech recognition and speech-to-speech functionality.
- Integrated image handling and voice command features to perform tasks like opening applications, searching the web, and managing files.
- Used libraries such as SpeechRecognition, pyttsx3, and Tkinter for GUI and voice interaction

PERSONAL PORTFOLIO WEBSITE : Jun 2024 - Present

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Optimized for performance and accessibility, ensuring compatibility across different devices and browsers.

PythonTextCapture: Interactive Text Entry Jan 2023

- "PythonTextCapture" is a mini-project developed in Python, showcasing a user-friendly graphical interface.
- The application includes a text view and buttons for alphanumeric input, facilitating easy interaction.
